Steps to download and install MAMP & MAMP PRO in Windows 10:

Step 1:

Open "https://www.mamp.info/en/downloads" in your favourite browser.

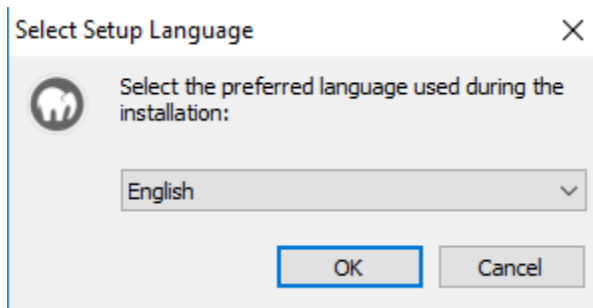

Step 2:

Click on the orange "Download" button.

Step 3:

Run the downloaded executable file - MAMP_MAMP_PRO_4.0.1.exe
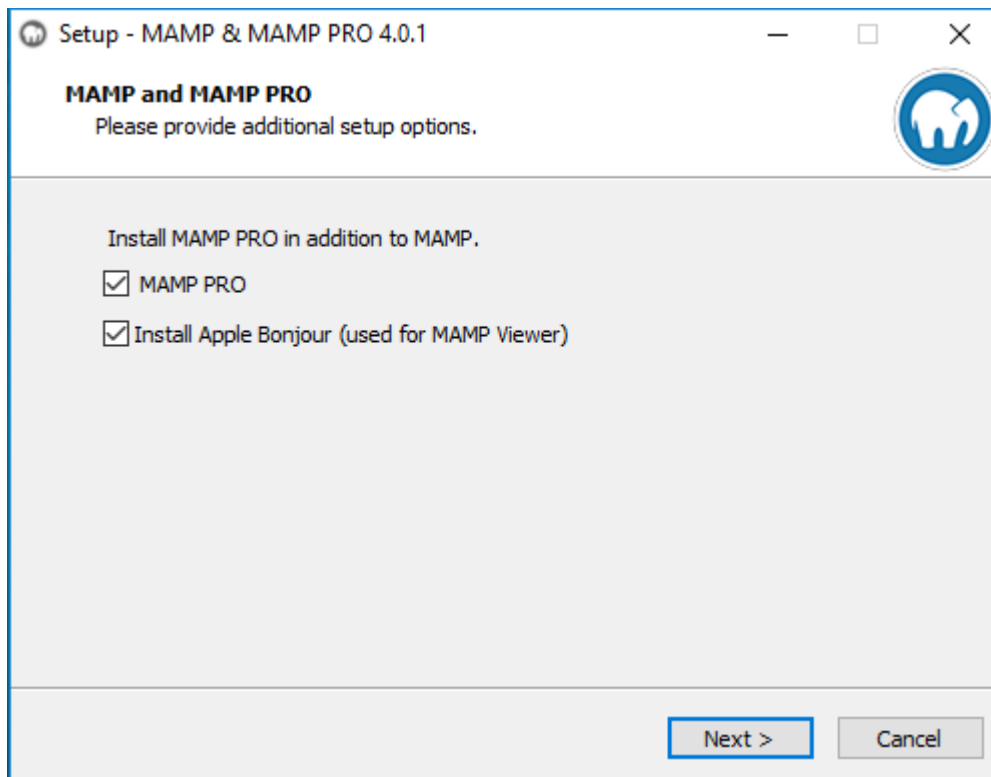

Step 4:
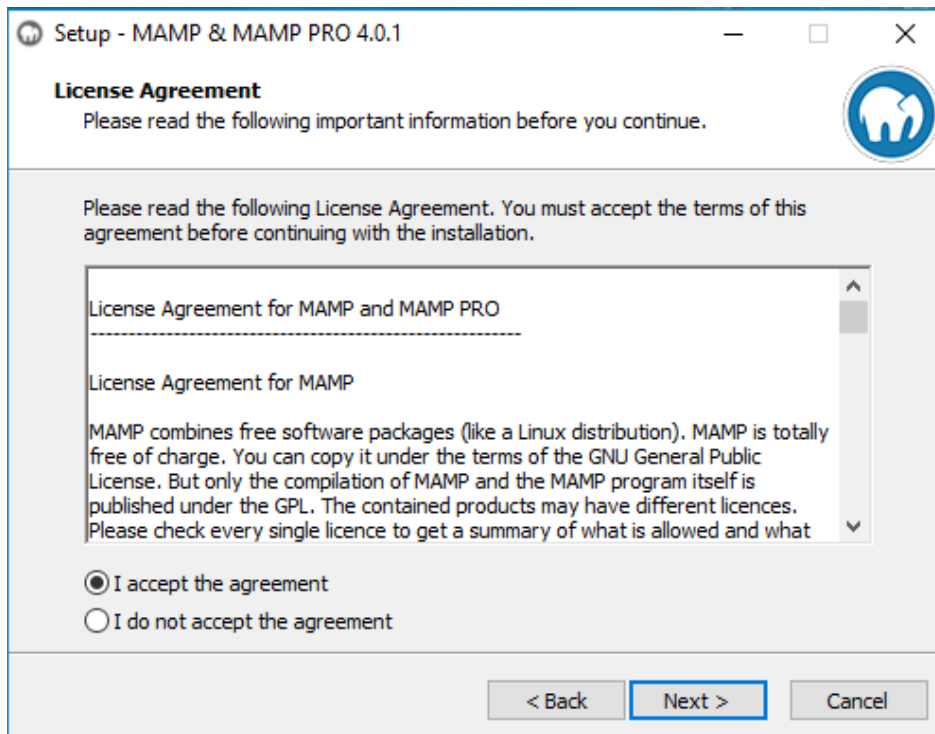

The following dialog will pop up.

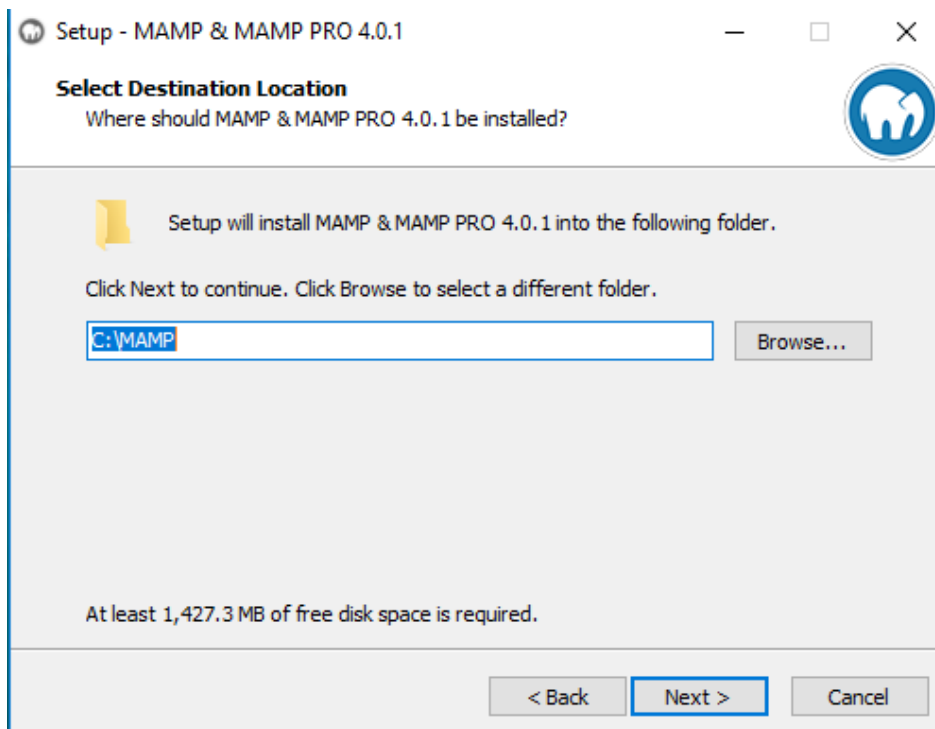

Click on "OK".

Step 5:

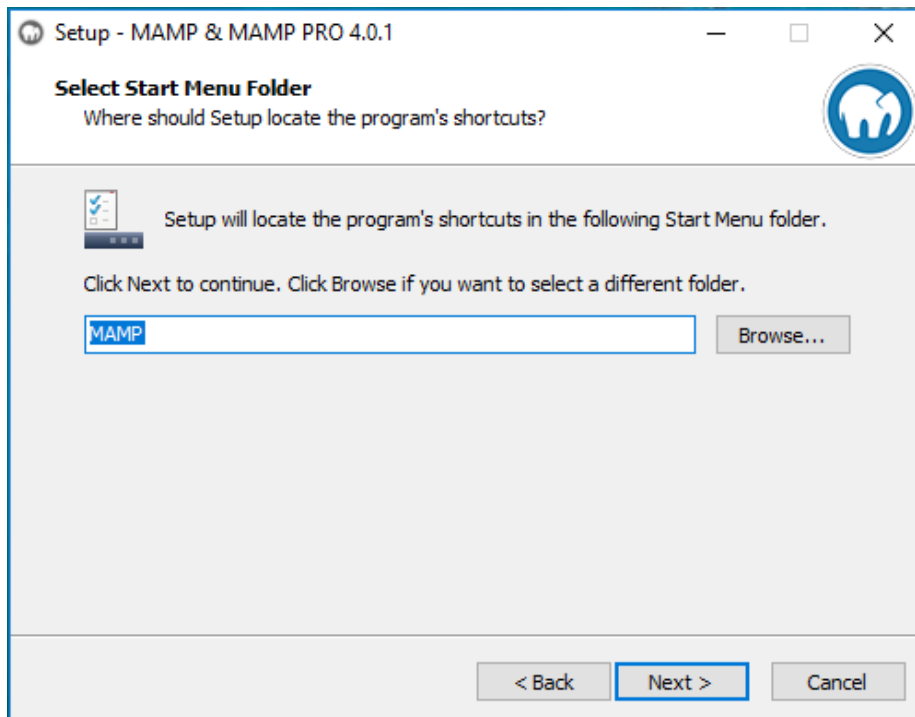

Click "Next".

Step 6:

Select "I accept the agreement" and click on "Next".
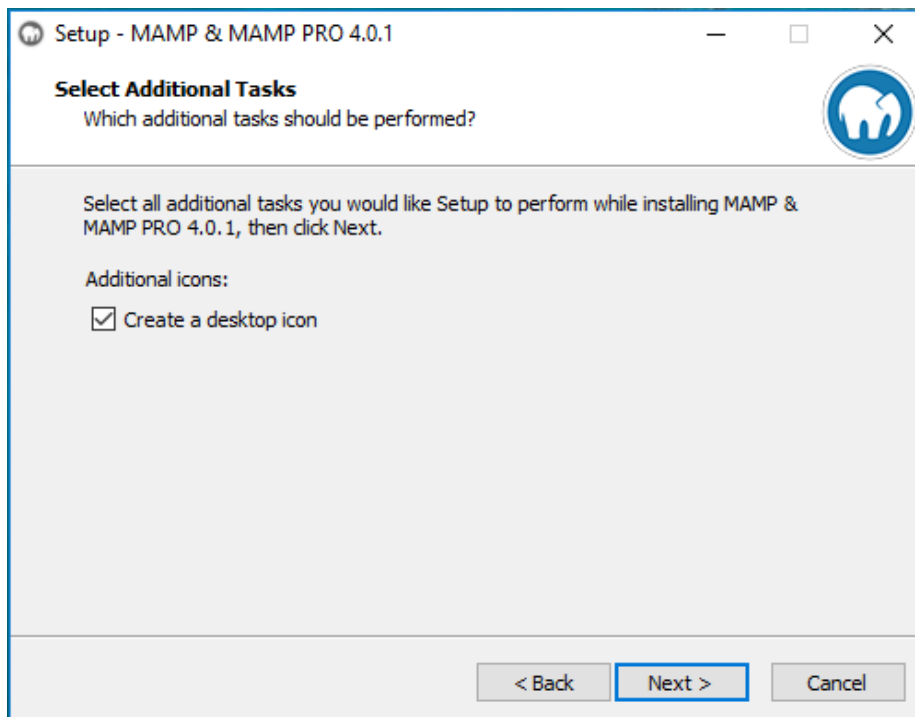

Step 7:

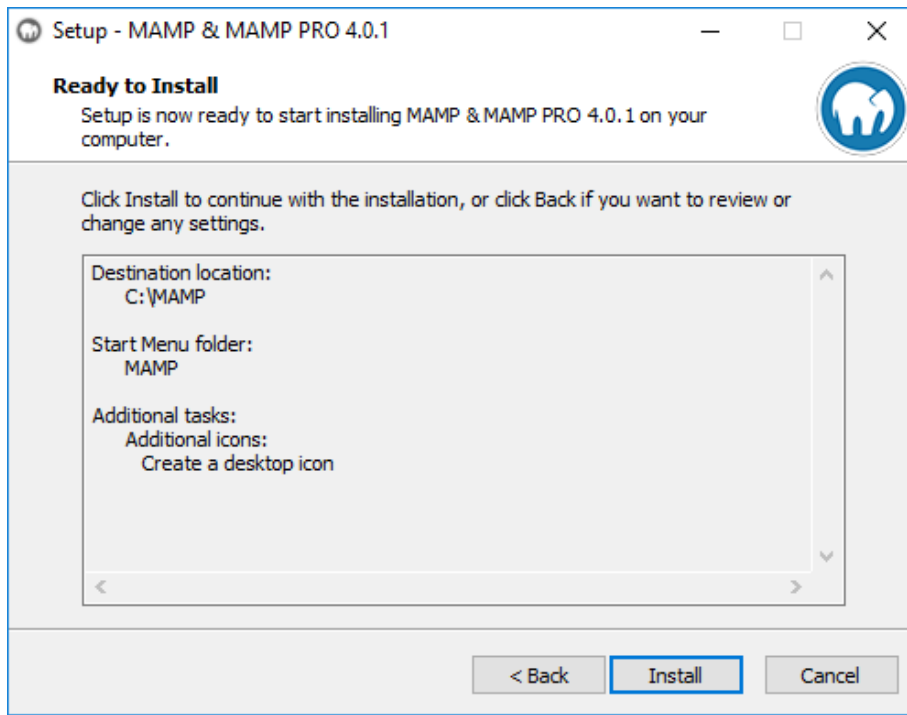

Click "Next".

Step 8:

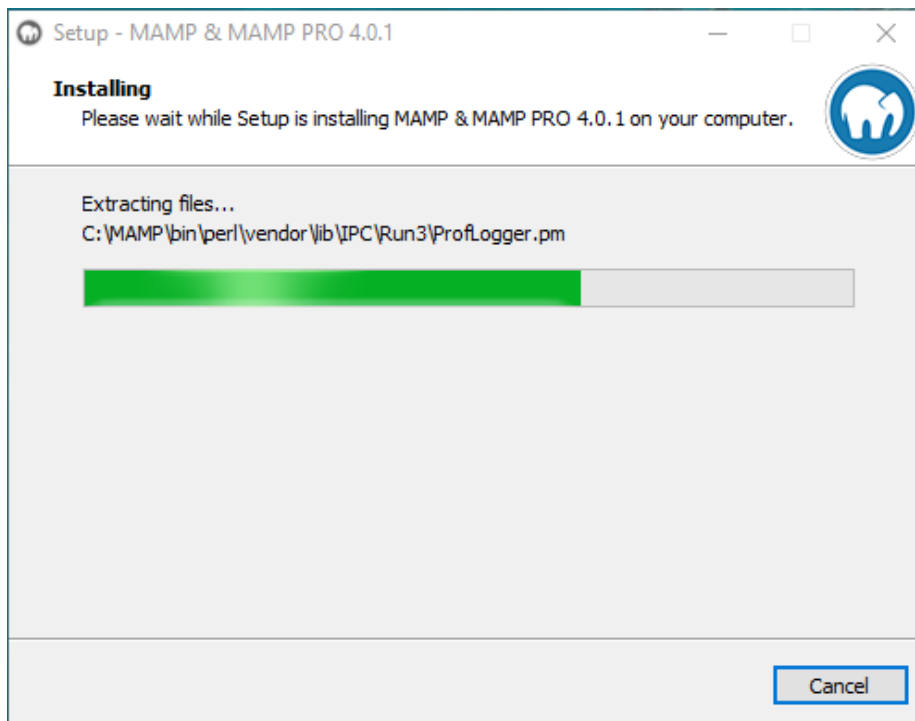

Click "Next".

Step 9:

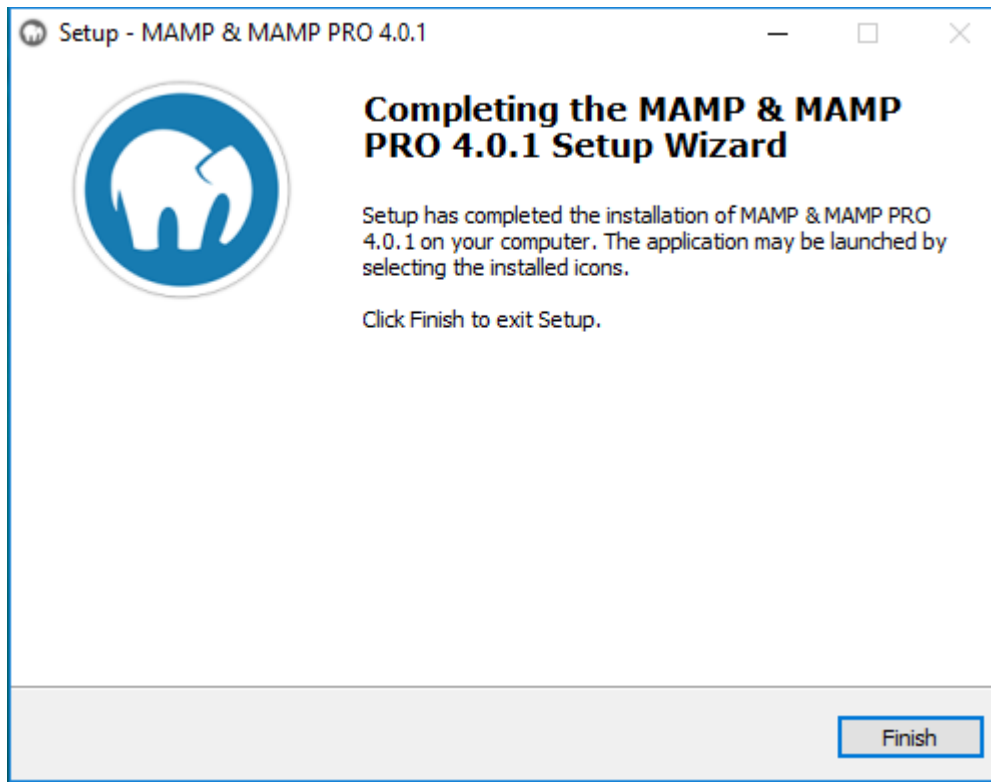

Click "Next".
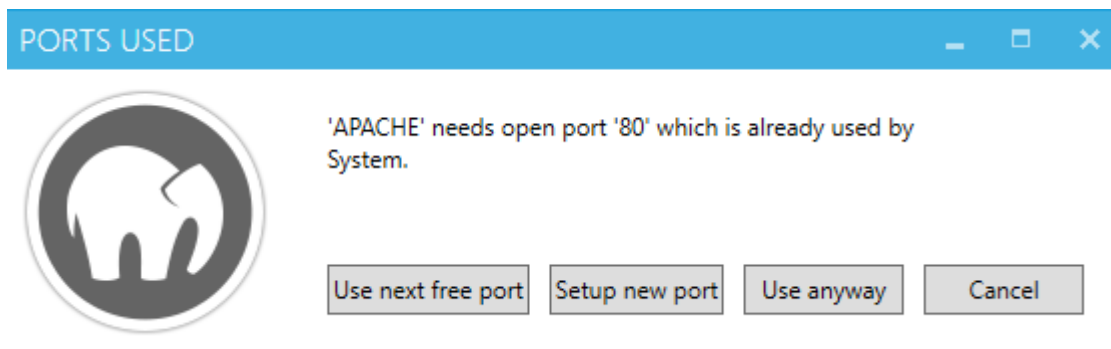

Step 10:

Click "Install".

Step 11:

Wait for the installation to get over.

Step 12:

Click on "Finish" to complete the installation.

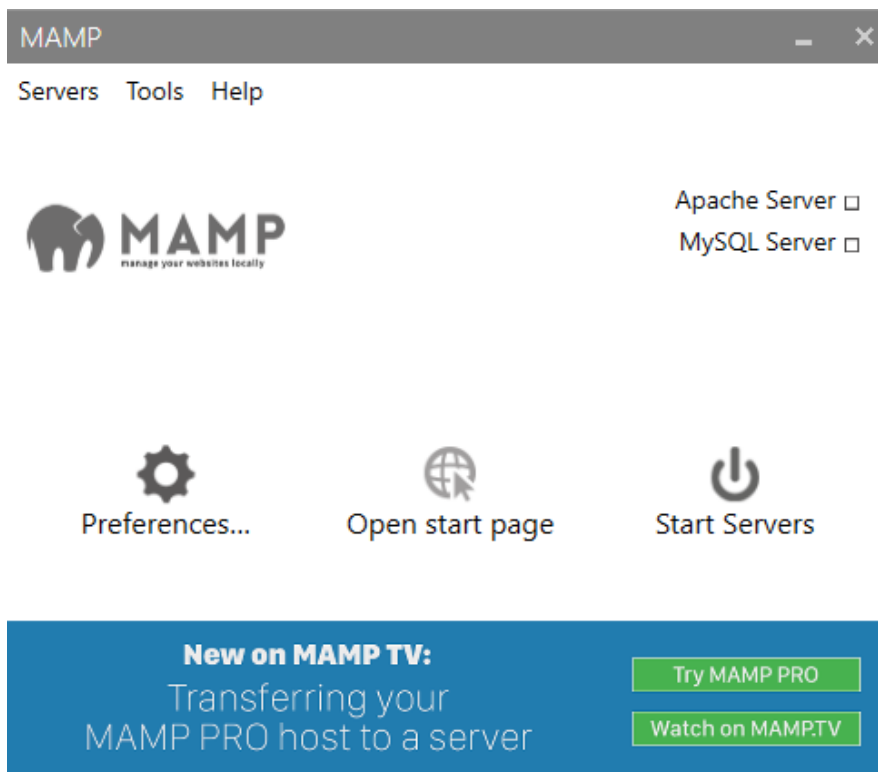

Step 13:

If the above prompt is shown, click on "Use next free port".

<u>Step 14:</u>

This is how the MAMP interface looks like.

Click on "Start Servers" to start the local server.

Step 15: If you are prompted with the Windows Security Alert dialog, click on "Allow access".

Step 16: On clicking "Open start page", the following page opens up with the url as – "localhost:81/MAMP".

Step 17:

To open any webpage on the server just copy the html file to the following location:

"C:\MAMP\htdocs" and open it in the browser.

For example: If the html filename is – index.html, just open the url – "localhost:81/index.html" in the browser.
